

**Alien heads found**

**in Georgia!**

Georgia is a transitional serif font designed for the screen. It shows a number of traditional features from the 19th century such as:

- Alternating thick and thin strokes
- Ball terminals
- Vertical axis
- Italic inspiration from calligraphy

It's number design are lower case or text figures, designed to bend into continuous text.

Small cap height

Long xheight

Alternating thick and thin strokes
